### Sinopsis

***Children's City. Inglés para Educación Infantil*** is a textbook specifically tailored to the needs of students enrolled in vocational education and training (VET) programmes in childcare and early childhood education ( *Ciclo Formativo de grado superior en Educación Infantil*). Aligned with the syllabus of Spain's VET programme, the book's content equips students with the fundamental English language skills they need to navigate the professional world of childcare and early childhood education. Practical grammar and vocabulary exercises —as well as other activities focused on listening, reading, writing, and speaking— will empower learners with the language proficiency needed to thrive in childcare settings.

Effective communication, teamwork, and creativity are crucial for childcare professionals. Thus, this book places special emphasis on the development of these skills, with a variety of activities and projects designed to prepare learners for situations that arise both at work and in everyday life. Students will manage their own learning and develop their ability to collaborate with others while also acquiring digital and organisational skills.
